

London School of Economics Alumnus and Data-Science student at HyperionDev

## SKILLS:

Keen Learner

Data Analysis

Interpersonal Communication

Research

Python

## DATA ANALYST EXPERIENCE

**HyperionDev**

Data Science Bootcamp Student (Skills: Python, Data Analysing)

03/2024-Present

The Data Science bootcamp covers Python, statistics, data science libraries and fundamental machine learning concepts.

Successfully completed practical, real-world projects.

Learning Python concepts, data cleaning and data visualisation through hands on individual tasks such as creating a programme that calculates holiday expenditure based on user inputs .

## LEGAL CAREER STEPS

**Allen & Overy**

GROW Event with Barclays and Sherman & Sterling

02/2024

Attended a Discussion about the future of law given the growth of AI which motivated me to enrol on a Data Science bootcamp.

**Bright Network:  
Commercial Law**

Internship Experience (Skills: Admin)

06/2023

Successfully completed multiple tasks to simulate a legal internship experience including taking notes for hypothetical supervisors, drafting a 'letter before action' and creating timetables based on real-world legal proceedings and court hearings.

**Clifford Chance &  
Forage**

Virtual Internship

02/2023

Produced a Newsletter Article about how the EU's Common Charger Directive represents an evolution of regulatory approaches by intertwining competition law with environmental policy.

## WORK EXPERIENCE

**Mail Box Etc & WYB  
IT Solutions**

Assistant Business Administrator

07/2022-Present

Engaged with retail customers to sell IT equipment, resolved computer/phone issues for customers, re-installed relevant OS on refurbished devices and booked IT repairs which improved my communication skills.

Provided logistical support to business clients by creating inventory tracking on Microsoft Excel spreadsheets, sending global invitations for events in Microsoft Word and designing business/gift cards through Photoshop and Canva software.

Tracked inventory of the company's IT stock to assist in creating a website using Shopify software which required organisational skills.

## WORK EXPERIENCE

### LSE CHANGEMAKERS

10/2021-08/2022

#### Assistant Researcher

Assisted in producing successful research project on how LSE challenged and improved the lived experiences of neurodivergent students.

This included:

- **Conducting Interviews**

- **Utilising Creative Methodology**

- **Creating Presentations**

- **Formulating Relevant Research Themes**

### Waltham Forest Council

02/2015

#### Work Experience Placement

Produced a list of charities for the borough's first every Mayoral Lottery and voluntarily produced an additional list of potentially fraudulent charities in the area.

Created a report on the borough's new bike scheme. Voluntarily conducted field interviews to inform the report and produced an additional report on how the scheme could impact inequality.

Created articles for local newspaper about local issues, achievements of residents and events in the area.

Represented the council to a range of external stakeholders such as international charities and cabinet ministers.

## EDUCATION

### LONDON SCHOOL OF ECONOMICS

2018-2022

#### Bsc International Social and Public Policy with Politics

Covered a range of topics such as: Critiquing the role Social Policy plays in Development Objectives, Comparing different Welfare States, Understanding Political Philosophy and Explaining the overlap between Social Policy and Economics among other topics.

Delivered a mixed-methods study that involved creating regression analysis tables in Stata Software.

Utilised Tableau software to learn about global food shortage patterns and delivered a presentation based on these findings.
